

Last December, an Automated External Defibrillator (AED) helped save a life at the Jewish Community Campus. Unfortunately, many Jewish organizations in our area are without this important life-saving equipment. AED's generally cost around \$1,400 and are a necessity in public places where a large number of people gather.

Organizations currently needing an AED are:

- University of Kansas Hillel
- Jewish Family Services-Ward Parkway Location

Please contact the JCF (913)327-8245 if you'd like to donate funds.
