### Heritage Center

- **Dishware & Silverware for lunch service** (2 sets of 100 svc)

Cost: \$3,500

Thousands of styrofoam plates and plastic silverware/cups are used by HC seniors every month. We'd like to reduce the waste we're contributing to landfills and become a more environmentally friendly operation

- **Portable dance floor**

Cost: \$13,000

Would be used for dances and special events. Could also be a revenue source through rentals.

- **Large Exterior Planters & floral for HC patio**

Cost: 2,000

To beautify the Heritage Center patio

- **Kurig Coffee Maker**

Cost: \$165

An added special touch for HC participants that gives options (an important value of boomers)

- **Entertainers for quarterly performances/Dances**

Cost: \$3,000

Live bands and performers attract individuals who may not normally participate in HC programs. By exposing them to HC programs in this way were creating the potential for a long-term relationship. We're also meeting the social needs of our existing members.

- **Technology & hardware for lunch card system including cards, scanners, computer, desk, network connection**

Cost: \$4,000

This system would be similar to the set-up use for camp lunches. Seniors would purchase a card loaded with a determined number of lunches. The card would be scanned when utilized. This would help us track and accommodate our scholarship recipients and have better cash control procedures

- **Frozen yogurt machine - Commercial Grade**

Cost: \$5,500

An added special touch for HC participants that gives options (an important value of boomers). Could be used by other departments for special events & fundraising opportunities

- **Laptop and Projector for Art instruction and student research. Also includes network charges**

Cost: \$4,400

HC art classes are a signature program reaching many seniors. Having these instructional tools enhance the student experience and has the potential to increase class capacity and diversity
